

AIRMAX® RGBW COLOR- CHANGING LED 2 LIGHTS SET

Make your fountain colorful at night! The RGBW Color-Changing LED Light Sets are designed for the AquaStream™ 1/2 HP Fountain, EcoSeries™ 1/2 HP Fountain and PondSeries™ 1/2 to 2 HP Fountains. Each light set is powered by low energy, high output 120V LED sealed bulbs. When installed, the lights are designed to be only partially submerged; this maximizes light output and helps to keep lenses free of debris for low maintenance. Each light is fully adjustable so you can optimize illumination for any spray pattern. The RGBW Color-Changing LED Lights is run by a wireless remote with a range of up to 200ft that lets you select a variety of color options. Available in 2, 4, 6 or 8 RGBW Color-Changing LED light sets and 100' - 600' power cords. 3-Year Warranty.
