## CHILTON OUTCROP WEATHERED EDGE 9"-12" HEIGHT

By sourcing natural stone hardscape pieces for landscape design and building stone veneers from the same quarries, we promote real stone material matching and symmetry among all parts of a project. Chilton Outcroppings range in diameters from 12" to 60" and heights from 5" to 12". Their natural color range includes lavenders, mauves, grays, buffs, blues, and browns; faces are gray to charcoal with occasional mauves; tops or bottoms are purple.

**SKU** 11143

**Brand** BSC

**Application/Use** Retaining Wall/steps

### Size

**Length**

18"-60"

**Width**

18"-60"

**Thickness** 9"-12"

### Characteristics

**Color** Desert Sand|Light Grey|Lilac|Red|Tan

**Surface Finish** Natural Cleft

**Edge Finish** Natural Split

**Stone Type** Dolomitic Limestone

### Data

**ASTM TESTING DATA** Chilton C97 Water Absorption-0.08%  
Chilton C97 Density-177.4 Pcf Chilton C99 Modulus of  
Rupture-1,220 Psi Chilton C170 Compressive Strength  
W/rift-50,560 Psi Compressive Strength Across Rift-38,090 Psi  
Chilton C880 Flexural Strength-3,070 Psi

### Coverage & Weight
