## WEED BARRIER LANDSCAPE FABRIC 4'X 100' ROLL GATOR

Comprised of polyester fibers needled together into a stable matrix that provides excellent physical and hydraulic properties. Easily installed and conform to the ground or trench surface. Strong enough to withstand severe installation stresses yet exhibits great permeability to provide high flow rates and filtration properties.

**Application/Use** Underlayment

---

### Size

**Length** 100'

---

**Width** 4'

---

**Thickness** 5oz

---

### Characteristics

**Color** Black

---

**Material** Woven Poly Propylene

---

### Data

### Coverage & Weight

**Coverage** 400 SF

---
